Review

"I'm really impressed with the new 'Big Picture' feature. It will be really useful in encouraging my students to think more critically about American politics!" -- John Carhart "Keeping the Republic: Brief Edition is my go-to American politics textbook. It's accessible and practical. Through an emphasis on citizenship, Barbour and Wright masterfully encourage students to analyze the impact of government and politics on their lives." - - Sara M. Butler "Keeping the Republic: Brief Edition is that rare text that clearly and briefly describes key political science concepts, while at the same time offering students substantive insight into the political process. Barbour and Wright's text is both comprehensive and completely relatable for students." -- Zachary Callen

About the Author

Christine Barbour teaches in the Political Science Department and the Hutton Honors College at Indiana University, where she has become increasingly interested in how teachers of large classes can maximize what their students learn. She is working with online course designers to create an online version of her Intro to American Politics class. At Indiana, Professor Barbour has been a Lilly Fellow, working on a project to increase student retention in large introductory courses, and a member of the Freshman Learning Project, a university-wide effort to improve the first-year undergraduate experience. She has served on the New York Times College Advisory Board, working with other educators to develop ways to integrate newspaper reading into the undergraduate curriculum. She has won several teaching honors, but the two awarded by her students mean the most to her: the Indiana University Student Alumni Association Award for Outstanding Faculty and the Indiana University Chapter of the Society of Professional Journalists Brown Derby Award. When not teaching or writing textbooks, Professor Barbour enjoys playing with her dogs, traveling with her coauthor, and writing about food. She is the food editor for Bloom Magazine of Bloomington and is a coauthor of *Indiana Cooks!* (2005) and *Home Grown Indiana* (2008). She also makes jewelry from precious metals and rough gemstones and if she ever retires, she will open a jewelry shop in a renovated air-stream on the beach in Apalachicola, Florida, where she plans to write another cookbook and a book about the local politics, development, and fishing industry. Gerald C. Wright has taught political science at Indiana University since 1981, and he is currently the chair of the political science department. An accomplished scholar of American politics, and the 2010 winner of the State Politics and Policy Association's Career Achievement Award, his books include *Statehouse Democracy: Public Opinion and Policy in the American*

States (1993), coauthored with Robert S. Erikson and John P. McIver, and he has published more than fifty articles on elections, public opinion, and state politics. Professor Wright has long studied the relationship among citizens, their preferences, and public policy. He is currently conducting research funded by grants from the National Science Foundation and the Russell Sage Foundation on the factors that influence the equality of policy representation in the states and in Congress. He is also writing a book about representation in U.S. legislatures. He has been a consultant for Project Vote Smart in the past several elections. Professor Wright is a member of Indiana University's Freshman Learning Project, a university-wide effort to improve the first-year undergraduate experience by focusing on how today's college students learn and how teachers can adapt their pedagogical methods to best teach them. In his nonworking hours, Professor Wright also likes to spend time with his dogs, travel, eat good food, fish, and play golf.

KEEPING THE REPUBLIC; POWER AND CITIZENSHIP IN AMERICAN POLITICS 6ED BRIEF FROM CQ PRESS PDF

Keeping the Republic's lively discussion of "who gets what and how" develops students critical thinking abilities in the intro American government course. Every section and every feature in this Sixth Brief Edition has one goal in mind: to get students to think critically and be skeptical of received wisdom. Serving as a true aid to teachers, each chapter is designed to build students' analytical abilities while keeping chapter length to a minimum. With the authors own expert condensing, Barbour and Wright make sure to introduce to the seminal work in the field as well as show them how to employ the themes of power and citizenship. This proven brief text builds confidence in students who want to take an active part in their communities and government to play their part in keeping the republic, and to consider the consequences of that engagement (or lack thereof).

It's okay

By Dragember

I have this book for a poli sci class I'm taking in Uni.

It gives a good overview of things, attempts to be unbiased. Still, how far into depth it goes into things makes me think it's for high school or middle school... As in, it doesn't seem to elaborate or go into detail on a lot of subjects.

With that in mind - it does read easy.

One of the better intro to government books available

By Raquel G

One of the better intro to government books available. This was easy to follow and while it may seem juvenile I like all of the colors and infographics that this had. The price here on Prime was very fair also.

The charge you for the length of your term rather than a standard full semester like most other place

By Sal

Renting books from Amazon is the way to go. The charge you for the length of your term rather than a standard full semester like most other place. The book arrived within two days and return shipping was an easy process. Amazon provides you shipping return labels and updates you by email when your package arrives at their return center.
