Just before beginning his first term on January 20, 1993, President-Elect Clinton made a very strange request to close family friend and lawyer Webster Hubbell: "If I put you over there in justice I want you to find the answer to two questions for me: One, who killed JFK. And two, are there UFOs." According to Hubbell, "Clinton was dead serious." The key to unlocking the mystery of President Kennedy's assassination and a possible UFO connection lie in events that occurred 18 years earlier in post-war Germany. In 1945 John F. Kennedy was a guest of Navy Secretary James Forrestal, where he personally witnessed technological secrets that have still not been disclosed to the world. These secrets stemmed from extraterrestrial technologies that Nazi Germany had acquired and were attempting to use in their weapons programs. In searching for answers to who killed President Kennedy we need to start with the death of his mentor, James Forrestal in 1949. Forrestal became the first Secretary of Defense in 1947, a position he held until March, 1949. Forrestal was a visionary who thought Americans had a right to know about the existence of extraterrestrial life and technologies. Forrestal was sacked by President Truman because he was revealing the truth to various officials, including Kennedy who was a Congressman at the time. Forrestal's ideals and vision inspired Kennedy, and laid the seed for what would happen 12 years later. After winning the 1960 Presidential election, Kennedy learned a shocking truth from President Eisenhower. The control group set up to run highly classified extraterrestrial technologies, the Majestic-12 Group, had become a rogue government agency. Eisenhower warned Kennedy that MJ-12 had to be reined in. It posed a direct threat to American liberties and democratic processes. Kennedy followed Eisenhower's advice, and set out to realize James Forrestal's vision. The same forces that orchestrated Forrestal's death, opposed Kennedy's efforts at every turn. When Kennedy was on the verge of succeeding, by forcing the CIA to share classified UFO information with other government agencies on November 12, 1963, he was assassinated ten days later. Kennedy's Last Stand is the story of how an American President tried to realize his friend and mentor's vision of a world where humanity openly knows about extraterrestrial life; and of the government officials responsible for denying that vision.

A Must-Read on the JFK Assassination

By Richard

Dr. Michael E. Salla is director of the Exopolitics Institute, which studies UFO and extraterrestrial phenomena from the standpoint of how we can penetrate the veil of secrecy drawn by governments over the massive amount of UFO/ET contact that has reportedly taken place worldwide over the past seven decades.

The main culprit in this secrecy, of course, is the government of the U.S. Timed to coincide with the 50th anniversary of the assassination of President John F. Kennedy, Dr. Salla's most recent book is "Kennedy's Last Stand: Eisenhower, UFOs, MJ-12 & JFK's Assassination." In this book, Dr. Salla links two mysteries: UFO/ET contact, which, to those who follow the research, is familiar territory, and the assassination of JFK on November 22, 1963, by parties as yet unknown. The question Dr. Salla addresses is whether there is a link between the two; more specifically, whether there is a connection between MJ-12, the secret governmental unit first set up by President Harry Truman to control information deriving from alleged UFO crashes at Roswell and elsewhere in the late 1940s, and the killing of JFK in Dallas, Texas, over a decade later. The UFO/ET literature is also full of accounts of President Dwight D. Eisenhower's own contacts with representatives of other worlds, which Dr. Salla reprises to some extent. But Eisenhower was also fully a party to keeping the public from knowing anything of substance. And despite an apparent attempt to gain information about what was going on at CIA-controlled secret sites in Nevada, Eisenhower never had any control over what MJ-12 or the CIA were doing. When he gave his famous public warning against the growing power of the "military-industrial complex" just before leaving office in 1961, it was far too little and far too late. JFK was left holding the bag in inheriting this potentially disastrous situation. By then the die was cast, especially given JFK's own interest in UFOs that started through his relationship with former Secretary of Defense James Forrestal. After the Bay of Pigs fiasco, by which JFK learned the extent to which the CIA could lie, even to the commander-in-chief, CIA Director Allen Dulles was forced from office. According to Dr. Salla, before his departure Dulles gave a secret order for JFK to be eliminated that was passed on to the CIA's counterintelligence chief James Jesus Angleton for implementation. Dr. Salla provides photocopies of the implicating documents, though their authenticity is obviously difficult to prove. The deed was done two years later, with the research of past decades indicating that it was likely coordinated by the CIA by utilizing hired killers from organized crime and the Cuban exile community, with cover provided by Lyndon B. Johnson, the military, and the FBI. So congratulations to Dr. Michael Salla in moving our knowledge of JFK and his role in the deeper history of our time further along in such a courageous and coherent manner. There are many indications that the CIA has waned in its influence in the last couple of decades, though its power may have been supplanted by other units within the nether regions of the Pentagon and/or other agencies, including the Mossad. Nevertheless, Dr. Salla's book "Kennedy's Last Stand: Eisenhower, UFOs, MJ-12 & JFK's Assassination" is a must-read in furthering our understanding of these tremendously important events. A Reason for the JFK Assassination that Makes Sense

By George

November 22, 1963 was a tragic day for the United States when the President was murdered in a hail of bullets. Witnesses identified gun fire coming from several directions with multiple shots fired. Yet, almost immediately, a coverup was initiated to hide what really happened.

Why was so much effort put into covering up the crime of the century? What was there to hide?

It's been 50 years since that tragic day. From the beginning, competent researchers such as Harold Weisberg and Mark Lane demonstrated there was a cover up. Since that time, many other researchers have sifted through the evidence, at least the evidence that was not destroyed or altered, and come to the conclusion that President Kennedy's death was the result of a conspiracy. Even the House Committee had to begrudgingly admit there was a conspiracy. But why the elaborate cover up?

There have been many reasons for the murder of JFK proposed by numerous researchers, however for myself, they didn't make sense. Everything that Kennedy supposedly did to aggravate various groups who likely were complicit in the murder could have easily been undone. Why the extraordinary spectacle of a

public execution by multiple shooters?

Finally, after 50 years, a book was published that I feel gives the real reason President Kennedy was murdered. The book is called Kennedy's Last Stand: Eisenhower, UFOs, MJ-12 & JFK's Assassination. The conclusion is simple: President Kennedy wanted to reveal to the world the existence of extra-terrestrials, their technology and the fact the government had contact with them.

The book by Dr. Michael E. Salla provides documentation that it was this quest by President Kennedy that got him murdered.

Those of us that were alive when John Kennedy was President remember that the media loved him and actually created an image of brilliance and trust. I can assure you that if President Kennedy went on television and announced to the world that extra-terrestrials existed and were in contact with Earth, it would have been accepted at face value. Not only that, people would not have freaked out because President Kennedy was a trusted man.

Of all the things President Kennedy wanted to do to improve this country, things that researchers have speculated as the cause of his murder, all could have been undone easily. Some probably would have not even been possible due to Congress. In other words, what traditional researchers have listed as the reasons President Kennedy was murdered make no sense. However, the reason presented by Dr. Salla is one thing that COULD NOT be undone. If President Kennedy addressed the world that extra-terrestrials existed, that we had some of their technology and had on-going contact with species from other planets, it would never go away. It would also, in my opinion, make the world a better place which I feel is WHY he wanted to reveal the existence of extra-terrestrials.

President John Kennedy was murdered because he wanted to unite the world. It's sad that most people will never believe why he was really killed because the disinformation campaigns to hide the existence of extra-terrestrials have been effective. I urge you to read Kennedy's Last Stand: Eisenhower, UFOs, MJ-12 & JFK's Assassination. If you need background information, read Witness to Roswell: Unmasking the Government's Biggest Cover-up (Revised and Expanded Edition) .

Rest in Peace President Kennedy; We Will Never Forget!
