Review

'In this well-researched and useful book, Kathleen Valtonen offers a comprehensive response to the challenge of immigrant and refugee settlement...the author demonstrates a thorough understanding of settlement concerns and the challenges facing social work in order to meet them. Both practitioners and students will benefit from this outstanding book.' INSCAN 'Valtonen provides the reader with a broad multidimensional perspective on agendas of settlement and integration for migrants and refugees. This is particularly pertinent in the current climate, as these issues are being heatedly debated and contested at a time of rising xenophobia and discontent with mainstream political groupings within the UK. For students of social work, the publication is an important source of reference and one that would considerably enhance their knowledge of this complex and often highly charged subject.' British Journal of Social Work 'This book is intended primarily for scholars, practitioners and students in the discipline of social work. However, the broad spectrum of the content and the theoretical approach of the presentation also make the book suitable for a far wider audience... The author has long been engaged in research on the integration of immigrants and refugees in Finland, Canada, Trinidad and Barbados. Her varied background gives the book a rare international perspective, and enables an examination of general, rather than nation-specific, processes of immigrant integration and the role of social work therein... The wide scope of the book is impressive; it covers various social, political, economic and cultural issues on macro, meso and micro levels... The volume's strength is this broad theoretical and general perspective... Social Work and Migration provides an important reference source... The author's own extensive experience has contributed to this well-balanced introduction to a difficult subject.' Journal of Ethnic and Migration Studies
