"Excellent reference source for those really interested in significantly improving their spatial reasoning abilities within a relatively short period of time. The breadth of testing is so wide that the user will quickly and accurately identify his or her development areas, get to grips with what needs further work, while appreciating his or her own current strengths. Highly recommended." - 14 December 2015 "I bought this book as part of a wider purchase related to psychometric tests and I am really pleased with it. Happy to say that now I am more confident in my "battle" with this type of questions at a real test. I definitely recommend it and other books in the same topic. Thank you" - 16 September 2014
