## **Review**

One of the primary strengths of the Tompkins text is that the full range of genres taught in K-8 settings is represented, giving novice teachers an idea of the many kinds of writing they can use to strengthen their students' content literacy. My beginning teachers love this text!

Nikola Hobbel, Humboldt State University

There is much good, practical advice here for teachers — very accurate and on-target, lots of good assessment tools. If only my teachers had taught me poetry with this book!

Mayra Daniel, Northern Illinois University

This is an excellent book. This edition is a significant improvement that has not lost any of the original efficacy. The balance, level headedness combined with “just enough” research support are excellent.

Guy Tranin, University of Nebraska, Lincoln

The examples are appropriate and lively — each example thoroughly explains the concept further for the reader. The rubrics and checklists for writing are great.

Karla Broadus, University of Texas, San Antonio

The use of the classroom as a basis for examples is helpful and the figures used to illustrate bring the information together. A very teacher-useful book...finally!

By D. Rachlin

After suffering through Lucy Calkins's huge book of little use and Donald Graves's dry meditations, I finally found a book that is worth saving after that graduate writing course is over. Tompkins devotes a good deal of time discussing the many types of expository writing and many genre studies, above and beyond the theories and ideas about setting up a writing workshop. The activities and examples are clear and useful, the diagrams terrific. Tompkins really knows how to write and, I assume, to teach. I will be using this book to teach graduate students of education and add its wonderful contents to my own repertoire of teaching tools in my

4th gr. classroom.
