extremely useful

By Braden McMillin

I have rented this book but I am thinking about buying it despite its large price. There are so many useful and practical things in this book and I am not just saying this. Most of the time I only rent my books because most of the time I know I will only use it one or two times and the rest of my answers for my classes can be answered by google. This book is filled with tons of practical information that you can use in numerous situations for ex resume's, memo's, cover letters, instructions, definitions, brochures, and letters in general. The information in this book helped me get two job one as a supervisor and another as an office assistant (i'm only 20) and I have only had it for a few months. If your are thinking about renting this book and do have the money to buy it i highly recommend that you buy it to save yourself the trouble of deciding to buy it after rented it. whatever is your original intention you have for this book is well worth (that is if your getting it to learn from it) if you are looking for fuel for a fire i would recommend something else that is cheaper like dried out pine needles though if it must be a book i would recommend twilight.

Solid

By Andrew Tatge

Clear and well organized. Some of the information might seem fairly obvious, but if you wanted a reference book or were taking an introductory course on technical writing [or any formal writing] I couldn't tell you any problems that I had with it. Generally clear and well laid out, the writing isn't dull. It does a good job of exhibiting the ideals and practices it espouses in each chapter and section; I can't really ask for more in a book about communication.

Good Product

By Austin

The book isn't very dense, which is nice. The readings are easy, especially because I annotate as I go along to increase my retention rate. This isn't one of those text books that I dread reading, it's just a little time consuming (which I dislike, because this is for summer school, and I work full time). Overall, satisfied with my purchase.
