THE PSYCHOLOGY OF HANDWRITING: SECRETS OF HANDWRITING ANALYSIS BY NADYA OLYANOVA PDF

Every gesture a man makes is a clue to his character; the way he walks, talks, laughs, shakes hands. But one of the most important clues is the way he writes. Because he concentrates on what he is writing without sensing the formation of letters and words, he reveals more about himself this way than in any single gesture. Handwriting discloses the real person, his emotional barometer, thinking pattern, and the effect of the emotions upon his behavior. It shows a picture of the whole person...

3 of 4 people found the following review helpful.

Good to start with...

By DP

I picked up this and the Idiots Guide to... books on Handwriting Analysis. I read this first, in the hope that it would be detailed and provide context for the other.

It's a nice small book, that's easily read and completed in a matter of hours rather than days. However, there is some valuable information inside, though it's not always clearly explained. It's good to know why a large y loop shows something, but some explanation of why this is so would have helped. Especially in a book that leans on psychoanalysis.

Still, it's my first graphology book, and though I don't know if it's better than the Idiots guide yet (will review that too) I did find it useful and rather enjoyed seeing handwriting styles again - especially in the era of the typeface!

Very good.

By Shirley Masaoka

Easy to understand and she restates the same thing making it unforgettable. It is at the front of my library
